

gfx::bit_t

```
graph BT; A[gfx::five_bit_t] --> B[gfx::RGB]; B --> C[gfx::bit_t];
```

A diagram showing three types in a vertical hierarchy. At the bottom is a solid-bordered box containing 'gfx::five_bit_t'. An arrow points from its top edge to the bottom edge of a middle solid-bordered box containing 'gfx::RGB'. Another arrow points from the top edge of the middle box to the bottom edge of a top dashed-bordered box containing 'gfx::bit_t'.

gfx::RGB

gfx::five_bit_t
